To save yourself time and keep your embroidery clean, we created the best embroidery refill bags to bring your embroidery projects to life. Our embroidery refills bags keep your embroidery safe and clean and are the perfect way to store your embroidery designs. We have embroidery refills for both home embroidery machines and commercial embroidery machines. We have many sizes and a wide variety of bags to choose from. If you don't see the size you need, just send us a message and we will create it for you.Q: How to write data to NSMutableArray from NIB? i was playing with NIBs and was trying to load an NSMutableArray from NIB file to iPhone App. I found something like this: NSArray \*testArray = [[NSArray alloc] initWithContentsOfFile:@"test.nib"]; NSMutableArray \*testMutable = [[NSMutableArray alloc] initWithArray:testArray]; I've googled a lot and could not find any information about this. This code does not work for me. I'm sorry if i asked something not specific but i couldn't find the solution. I'm a newbie. Thanks in advance. A: I do this all the time in a project of mine. You can't just initWithArray, you need to do the following: NSArray \*testArray = [[NSArray alloc] initWithContentsOfFile:@"test.nib"]; NSMutableArray \*testMutable = [[NSMutableArray alloc] init]; [testMutable addObjectsFromArray:testArray]; [testMutable release]; [testMutable release]; Article content 2d92ce491b
