At this time of writing, the WordPress team is working on the release of WordPress 3.4. This is a big release and we can't yet describe in detail what's in it, but it's a significant update to the platform, which is why it's so important that you try out the trial version to test things out and make sure it works for your needs. There are some things in this release that will take a little time to get used to. As you get to grips with the new functions and features in WordPress 3.4, it will get easier. For the time being, you may want to go through the developer guide, where you can find links to relevant documentation.
