Category:Service suitesQ: Flat pattern in a scroll view I want to add a flat pattern in my scroll view as you see in the screenshot. But I tried to do it and I couldn't. I created a custom UIView class and subclassed UIView and I added a mask and a view with color to get that kind of result but I don't think it's a good solution. I am looking for a common solution that has a good result. A: I added a view with color and a mask in my custom UIView and I added this code to remove the background of the view - (void)drawRect:(CGRect)rect {
