City Bus Simulator Munich. Traffic. A new milestone in simulation: Citybus Simulator Munich, the successor of the 3 Category:Video game franchises introduced in 2009 Sometimes there's an album that just makes the hairs on your neck stand up. For me, it was 1988's *Elegant Slumming*, from The Ex's *The Stains*, who were, at the time, a group that put out records and had made a fairly big name for themselves with *Elegant Slumming*'s 'Louise's' and 'Priceless Me' single. Their debut album, however, had been stuck in the attics of my record collection for a long, long time, until a number of things happened at the same time. Firstly, I started getting into *The Lemonheads*, and then, in a totally unrelated way, I decided to do a series of *Five Favourite Albums*. But one thing I did notice straight away on re-listening to *Elegant Slumming* was the way the album came across as more than the sum of its parts. Each of the four tracks on the album are solo efforts by one of its four founding members, and each one has a distinct feel to
