I am not sure if it is only my program or the Adobe viewer. I believe it may be the program. Oct 29, 2014 This is the newest version of Pano2VR (4.1.0). A new tab will appear for each project that you will have open. For new projects, the project properties will automatically set to how you want them. For Pano2VR Pro, Pano2VR will show the list of projects that are open. You can select which project to open. If you close a project that is open and open a new one, the old project will stay open in the background. If you open a new project from the same folder as a project that is open, it will update all the panoramas in the old project with the new panoramas in the new project. Oct 18, 2014 With the 4.1.0 update, a new build button will appear on the first load of a new Pano2VR. The build button will give you an option to build an updated Pano2VR, which is always up-to-date. Aug 21, 2014 I would like to thank you for the continuous support and for being so generous with your time. Your patches have made a difference and I appreciate that. Sincerely, Goran 2d92ce491b
