As the industry standard for design and engineering, SOLIDWORKS is the perfect software platform to help you jumpstart your career. Shared services: A study of implementation in undergraduate medical education. Shared services are being introduced by many health organisations as a way of overcoming inefficiencies in the management of expensive shared resources. This paper aims to examine the practices and perceptions of implementation of shared services in undergraduate medical education, and, in particular, to determine if they are being applied in the way intended and if they are acceptable. Data were collected using a questionnaire with open and closed questions. The questions were based on a series of interviews with the participants who were used to validate the questionnaire. A total of 45 questionnaires
