The election of former banker Lucas Papademos to succeed outgoing technocrat Yannis Stournaras has raised hopes of a swift resolution to Greece’s deep financial crisis. But his first task will be to put a foot on the brakes. The former vice-president of the European Central Bank (ECB) was chosen unanimously by a meeting of the board on Monday to take over from Stournaras, who announced his resignation on Saturday, becoming the second prime minister in less than a week to quit amid a political and economic crisis. Former Greek Finance Minister George Papaconstantinou has warned that a “disastrous” downward spiral in the country’s economy is likely unless drastic measures are taken to stabilise its finances. “This is a country that is in the grip of a profound crisis,◆ 2d92ce491b
