Herein, a straightforward approach to the preparation of spirooxindole derivatives is reported. The methodology relies on the use of N-bromosuccinimide (NBS), which has been employed as an organo-reductive bromination reagent. The fact that this bromination of indoline-oxindoles proceeds under mild reaction conditions without external oxidants makes this approach a viable alternative to classical methods. This transformation provides a very convenient, atom-economic route to spirooxindoles, which are known heterocycles with a remarkable array of pharmacological properties.Q: Как преобразовать свойство объекта через свойство класса? Как преобразовать свойство объекта в простой переменной? Если все просто, и проблема в другом, то зачем так много вопросов? var MyObject = function () { this.isGood = true; } MyObject.prototype.isNormal = function () { return this.isGood; } var myObject = new MyObject(); e24f408de9
