[Download](#)

While fixing the activation error code 0xc004f012 in Windows 10 you will be given a guide to fix the other common error codes in Windows 7 and 8 such as 0xc0050010 and 0xc0020000 etc. See also: How to fix 0xC004F012 error code for Windows 10? ERROR\_CODE\_COULD\_NOT\_ENABLE\_ACTIVATION\_SOURCE\_FOR\_PDC (0xc004f012) Windows 10 Activation Error Code 0xc004f012 (Windows Update failed to activate) [Solved] Windows 8.1 Activation Error Code 0xc004f012 in Windows Update? ERROR\_CODE\_COULD\_NOT\_ENABLE\_ACTIVATION\_SOURCE\_FOR\_PACK (Note:0xc004f012 is a non-system error) A: From the error code you posted it seems that your current OS Version is not accepted by the activation server. That means, you need to upgrade your OS to a newer version. If you want to, you could contact Microsoft support team. Then, they will tell you whether or not they will reactivate your PC. And also, if you already followed the directions: To fix the issue, you must first connect to internet, and then start your computer in "Safe Mode" with networking (search for how to do this). Then, open the Windows\malware\WindowsUpdate\wuauserv.log file in Notepad. A blue error icon should be visible in the right pane. Click on that icon to open the Windows Update Log. Then, in the "WindowsUpdateLog" window, you should see a message in the center of your screen. It should look like this: We couldn't be auto-activated because the Windows Activation server couldn't connect to the Internet. Contact your system administrator to make sure the network is working. If you see this message, you must follow the solutions mentioned in the instructions. Because your activation has failed, you can't use this machine to download new updates. Click on the "More details..." link below the error. You should then see another message. This message will help you identify the error code. It will list all the details of the problem. Read those and then try to fix the problem accordingly. You can also run Windows Update Troubleshooter for Windows 10,
